- Button Rifled, Stainless Steel, 18” Barrel with Carbon Fiber Wrap
- 10-round rotary magazine
- Thread-in barrel headspacing
- MLok™ slot forends and MDT pistol grip

OVERVIEW:

Accuracy, performance, and balance. Three ingredients for the perfect rimfire rifle to ring steel at challenging distances. The bolt action B-Series Precision Lite models are feature rich with performance upgrades to create a perfectly balanced rifle for target shooting. These rifles feature an exclusive Modular Driven Technologies (MDT®) one-piece aluminum chassis with an adjustable cheek riser and length-of-pull spacers for the perfect fit. The already accurate, Savage precision button rifled barrel is upgraded with a carbon fiber wrap for optimum balance and heat dissipation. The carbon fiber heavy barrel profile and aluminum stock allow for a perfectly center-balanced rimfire rifle. Paired with the user-adjustable AccuTrigger™, this rifle is ready to compete right out of the box.
