

Unsurpassed accuracy, right out-of-the-box

Widely acclaimed for their out-of-the-box accuracy, Savage varmint rifles offer the best value, hands down. With standard features like the revolutionary AccuTrigger—giving the shooter the flexibility to adjust trigger pull easily—free-floating button-rifled barrels, dual pillar bedding and an oversized bolt handle for quick acquisition, this series offers all you've come to expect in a Savage varmint rifle.

The Model 12 Varminter Low Profile, also now offered in left hand, has a host of features, including a 26" heavy, fluted, stainless barrel and offers the shooter a true, varmint style stock with extra-wide beavertail forend for more stability when shooting from a bench or sandbags.

Savage AccuTrigger™

- Trigger pull between 1-1/2 to 6 lbs
- Capable of being adjusted by the owner
- Completely safe – no danger of accidental discharge even at the lowest setting
- Crisp release with no creep
