MAGNUM RIMFIRE SERIES

A22 Magnum Semi-Automatic 22 WMR

Stealing the modern looks of the Savage Arms™ A17™, the first high-performance semi-automatic rimfire specifically designed for the 17 HMR cartridge, Savage adds a new model to the series. The A22 Magnum is chambered for 22 WMR and features the same delayed-blowback semi-automatic action as the original A17. The rifle offers a 10-round rotary magazine, steel receiver and the game-changing Savage AccuTrigger™, which allows a crisp, clean trigger pull that is fully user adjustable. Its thread-in headspace system is identical to the brand's centerfire rifles, further increasing reliability and accuracy.

Features & Benefits

- 22 WMR delayed-blowback action
- User-adjustable AccuTrigger
- 10-round rotary magazine
- Button-rifled barrel
- Steel machined receiver
- Rugged composite stock
- Two piece bases for scope mounts
