

BETTER COMES STANDARD.

**110 PRAIRIE HUNTER**

Make extreme range a reality with a bolt-action platform built for the cartridge that rewrote the rules of ballistics. Our all-new 110 Prairie Hunter unleashes the full power and accuracy of 224 Valkyrie on varmints and predators everywhere. Its AccuFit™ system makes it easy to customize comb height and length-of-pull to any hunter. Combined with its user-adjustable AccuTrigger™, 22-inch button-rifled barrel and target crown, the rifle delivers the most consistent accuracy at extreme range. The 110 Prairie Hunter features a threaded muzzle, synthetic stock with a beavertail fore-end, three QD studs and a detachable box magazine.

**FEATURES:**

- Bolt-action 224 Valkyrie
- Cartridge offers the least wind drift and drop in its class and less than half the recoil of cartridges with similar ballistics
- AccuFit system: Ergonomic synthetic stock with adjustable length-of-pull and comb height
- 22-inch carbon steel threaded barrel (1/2-28) with cap
- Drilled and tapped with one-piece 20 MOA rail
- Detachable box magazine
- User-adjustable AccuTrigger
- Gray synthetic stock with beavertail fore-end and three QD studs
- Target crown
