

2015 NEW PRODUCTS

LAW ENFORCEMENT SERIES

11 Scout Rifle

Light. Fast-handling. Easy to get on target and place accurate shots in real-world conditions. The new Savage Arms™ 11 Scout Rifle combines all of the qualities for which scout-style firearms are known with Savage's legendary performance. It features a one-piece rail for mounting optics, the user-adjustable AccuTrigger™, and the AccuStock bedding system, which engages the action three dimensionally along its entire length for the best possible accuracy. An adjustable cheek piece built into the tough synthetic stock lets the shooter customize the rifle for a perfect fit, and the threaded muzzle brake can be removed and replaced with a suppressor.

Features & Benefits

- Versatile, fast-handling scout-style rifle platform
- User-adjustable AccuTrigger ensures a light, crisp pull
- AccuStock bedding system provides a rigid platform for superior accuracy
- Flat dark earth synthetic stock
- Adjustable cheek piece ensures a perfect fit
- Muzzle brake
- Suppressor-ready
