

2016 NEW PRODUCTS

SPECIALTY SERIES

16/116 Lightweight Hunter

Depending on the situation, a hunter might need to haul their rifle up a steep mountainside or quickly get it on target in a cramped blind. Whatever the specific demand, the compact, flyweight design of the new 16/116 Lightweight Hunter offers the maneuverability needed without sacrificing performance. It boasts the same features that give all Savage™ rifles their superb accuracy and reliability, but tips the scales at a mere 5.65 or 5.8 pounds, depending on caliber. Its rugged synthetic stock and 20-inch stainless steel barrel withstand the harshest conditions.

Features & Benefits

- Compact, lightweight design
- User-adjustable AccuTrigger™
- Black synthetic stock
- Stainless steel barrel
- 20-inch barrel
- 40.25 inch overall length
