Exclusively available at BASS PRO and CABELAS.

The 212/220 XP Strata Camo is built around the Model 110 rifle action, which is machined from steel bar stock and secured three-dimensionally along its entire length by the AccuStock internal chassis. The blued, 22-inch carbon steel barrel is free-floating and secured to the receiver using a Model 110-style locking nut that ensures shot-to-shot consistency. The user-adjustable AccuTrigger provides a light, crisp pull, and the AccuFit system allows hunters to customize length-of-pull and comb height for precision you

won't find in any other turkey gun. The detachable, two-round magazine enables quick loading, and the oversize bolt knob helps operation with gloved hands.
