SAVAGE

A22 PRECISION LITE

Features:

- Custom 1-piece MDT® chassis machined from billet aluminum
- Adjustable length-of-pull and comb height
- 1-Piece 20 MOA Rail
- Button Rifled, Stainless Steel, 18” Barrel with Carbon Fiber Wrap
- 10-round rotary magazine
- Oversized charging handle
- MLok™ slot forends and MDT pistol grip

Accuracy, performance, and balance. Three ingredients for the perfect rimfire rifle to ring steel at challenging distances. The semi-automatic A22 Precision Lite model is feature-rich with performance upgrades to create a perfectly balanced rifle for target shooting. These rifles feature an exclusive Modular Driven Technologies (MDT®) one-piece aluminum chassis with an adjustable cheek riser and length-of-pull spacers for the perfect fit. The

already accurate, Savage precision button rifled barrel is upgraded with a carbon fiber wrap for optimum balance and heat dissipation. The carbon fiber heavy barrel profile and aluminum stock allow for a perfectly center-balanced rimfire rifle. Paired with the user-adjustable AccuTrigger™, this rifle is ready to compete right out of the box.
