The American made Savage RenegaUGE will change the way you think about semiautomatic shotguns. RenegaUGE can handle the hottest high-brass and the mildest low-recoil shells with the same dependability. The patented D.R.I.V. (Dual Regulating Inline Valve) gas system ensures excess gas vents before it drives the bolt, resulting in consistent ejection, less felt recoil, and a lightning fast cyclic rate for dependably fast split times. RenegaUGE has been designed to fit almost any shooter. Everything from length-of-pull to comb height and drop at the heel can be adjusted to fit.

Renegaug Field is offered in a gray stock.

Renegaug Waterfowl is offered in a Mossy Oak Shadow Grass Blades stock.

Renegaug Prairie is offered in a TrueTimber Prairie stock with Desert Sand Cerakote.
