

# 110 HIGH COUNTRY

## FEATURES:

- AccuFit system lets hunters adjust comb height and length-of-pull
- User-adjustable AccuTrigger
- AccuStock rail system
- TrueTimber Strata synthetic stock with overmold surfaces
- Model 110 stainless steel barreled action with coyote brown PVD coating
- Spiral-fluted barrel and bolt
- Threaded muzzle; magnum calibers feature muzzle brake with taperlock interface
- Detachable box magazine
- PVD-coated bolt handle, receiver, barrel, trigger guard and magwell
- Drilled and tapped receiver
- Three-position safety

## OVERVIEW:

The biggest bulls. The longest shots. With the new Savage® 110 High Country, they're all within your reach. The rifle is built to maximize accuracy with a spiral-fluted barrel and bolt, as well as the Model 110 action secured three-dimensionally along its entire length within the AccuStock™ internal chassis. The AccuFit™ system lets hunters customize length-of-pull and comb height of the TrueTimber® Strata synthetic stock. Plus, the user-adjustable AccuTrigger™ offers a crisp, clean pull critical for making precise shots at extreme distances. The low-friction, coyote brown PVD coating on the barrel, receiver and other critical parts is harder than competing finishes and protects against corrosion and heat. At just 2-4 microns thick, the coating does not interfere with the rifle's tight tolerances
