110 ULTRALITE ELITE

OVERVIEW:

Savage is taking innovation and accuracy to new heights at faster speeds with the 110 Ultralite Elite. With its exclusive Proof Research carbon fiber wrapped stainless steel barrel and MDT HNT26 folding carbon fiber stock, the 110 Ultralite Elite can achieve lighter weights for higher altitude hunts and longer treks for big game. Savage® teamed up with PROOF Research® to craft a barrel specific for a purpose driven firearm. At ~5 pounds, the 110 Ultralite is designed to combat elevation and elements while maintaining the performance of a factory blueprinted Savage 110 action.
